Wondering if we produce our furniture in Denmark?

The answer is a resounding YES!

Our furniture is based on ideas of simplicity, functionality and great details. One of the great details is that we only use sustainable materials. Another is our commitment to the original trade.

Throughout the years, Skovby has educated more than 250 men and women within the field of furniture production. With an inclusive staff policy, a flexible senior policy and a constant flow of around 10 apprentices, we carry on our core values while also investing in the future.

We are proud to say that we work hard and passionately each day to uphold the traditions of great Danish design. We still produce our furniture locally, in Denmark – strengthening and embracing the know-how and craftsmanship necessary for creating the ultimate Danish design pieces for our customers to enjoy for many years to come.

For more than 85 years, this has been our mission.

Third generation

Skovby's story began in 1933 in a small rural village in Denmark. Back then a talented young cabinetmaker with big dreams started a small-scale furniture production in his mother's home in Skovby. His name was Thorvald Rasmussen – and this was the beginning of what would eventually become Skovby Møbelfabrik A/S.

For Thorvald – and later his son Villy – there were many obstacles, but also many triumphs along the way, and slowly but surely the company expanded and grew. Today Skovby is owned by third generation and grandsons Preben and Jørgen Rasmussen and the furniture is still designed and produced locally – in the heart of Denmark – in Skovby, where it all began.

The more the merrier

In the category of rectangular dining tables with traditional extension systems, you find our popular models #23, #24, #26 and #27. All tables are supplied with three extension leaves, which are stored conveniently under the tabletop. A fourth extension leaf is available separately for #23 and #26 as is a set consisting of three extra extension leaves for #24 and #27. Each inserted extension leaf extends the seating capacity by two seats.

Meet the designer

Behind Skovby's characteristic designs is architect Per Hånsbæk.

Hånsbæk Design and Skovby have celebrated more than 30 years of successful collaboration, creating innovative and pricewinning design.

Per Hånsbæk graduated from Aarhus School of Architecture in 1976 and formed his industrial design studio.

His focus is on functionality combined with a fine sense of aesthetics and quality of materials.

Keeping it local

We love wood

Wood is a living, lasting and everchanging material. And it is the core of everything we do.

We believe balance is key. And we believe in protecting and respecting nature and the forests that give life to our furniture. That is the reason why we produce our furniture locally – in our three Danish factories.

Why we only use wood from sustainable forests and utilise all excess wood. Why we invest in energy-efficient machinery and technology. And why we strive to always create high-quality pieces that last a lifetime and can be redeployed and recycled, again and again.

Because we care.

Table #73 has a pleasing elliptical shape and a patented, synchronous extension system. Pull apart the tabletop to reveal the extension leaf hidden in the base. A light pressure will cause the leaf to rise and unfold, extending the seating capacity from 6 to 10 people.

This model is also available in a smaller and more compact #72 version fitting 4-6 people.

Tables for living

Skovby #106

Bring nature into your home with the cool and modern plank table #106.

The solid planks of the tabletop appear smooth yet rustic as they clearly show the life, quality and feel of the wood. The planks are carried by two movable trapeze-shaped frames providing a sturdy look and great flexibility.

The model is also available in the slightly shorter version #105.

Beautiful and functional workspaces

The new home desks with rounded corners in solid wood, veneer or laminate provide beautiful and functional workspaces.

Choose between a classic underframe of four wooden legs mounted in each corner, or a rounded steel frame inspired by the style of the 100-year-old Bauhaus School of design.

The home desks have pre-installed USB plugins, a spacious drawer and velcro straps for cords and cables.

Model #55 is an alternative to the popular dining chair #65. Combining the original and voluminous seat with a slick swivel base creates new interesting proportions and functions.

Reaching new heights

Counter and bar stools #808 and #809 consist of edgy shell seats and solid wooden underframes. The legs are constructed around two square frames, which give the stools a distinct geometrical look and characteristic silhouettes.

The stools are made from strong, natural materials but maintain a light expression because of the thin, elegant shell seat.
